Talk to a healthcare professional if you or someone you know are experiencing these signs or symptoms – it could be related to a neuromuscular disease.

Here are some questions you can ask:

1. What do my signs or symptoms mean?
2. Could I have a neuromuscular disease?
3. How can I find out if I have a neuromuscular disease? What tests are available? Should I get genetic testing?
4. Should I be referred to a neuromuscular specialists and/or neurologist?
5. I have been diagnosed with ______________. Is it possible that my signs or symptoms could actually be something else?
