

Muscular Dystrophy Canada

End of Grant Report

All grant recipients must submit an “End of Grant Report” within 6 months of the end date of their grant. The End of Grant Report consists of a questionnaire and brief 2-page summary of results (up to 2 pages) as outlined below. The End of Grant Report will highlight the research performed, significant impacts, media coverage, leveraged funding and any publications/honours during the grant period.

Additionally, as impacts of research may occur beyond the termination date, grantees are asked to submit a “Post 2-Year Grant Report” which consists of only a questionnaire two years after the grant termination date.

The data provided are measured so that MDC can report on the contributions of funded project, and to demonstrate impact so that we can ensure continued financial support for these grant competitions. We greatly appreciate your partnership in this endeavour.

Submission:

For grants awarded prior to September 2019 please email completed report below to:
MDC Grant Administrator at research@muscle.ca

For grants awarded after September 2019 and managed on ProposalCENTRAL, you will receive notifications through ProposalCENTRAL and can submit reports online through this portal. If you have any technical issues or have not received the prompt at the end of your grant, please contact research@muscle.ca

Ignited by passion, fueled by hope.

Name of Lead Applicant

Affiliation(s)

Title of Grant:

Granting Period:

Team: Co-Applicants/ Collaborators

List Names, Affiliations, Institutions

Please indicate if any of these individuals are in early stages of their career i.e. investigator within 5 years of starting own lab, postdoctoral fellow or graduate student.

Questionnaire

- 1. Has data generated by this seed grant been subsequently used to apply for additional grants i.e. CIHR, MDA or any industry funding.**

If Yes, what is the status of this grant application(s) and amount obtained?

- 2. Has data generated from funded research been submitted for publication (peer-review journal, book chapters, standard of care manual, patents ect).**

If yes, please list titles, type of publication and attach copy if available. For manuscripts in preparation and filed patents not yet issued please list below expected dates and please share once accepted.

- 3. Has data generated from funded research been featured in media i.e. news broadcasts/articles, university/research institute news releases etc.**

If yes, please provide list and links below. Please include any future expected announcements if known.

- 4. Has data generated from funded research been used to create Knowledge Translation products i.e. presentations at scientific/public/patient conferences, podcasts, webinars, videos, plain language written and or visual products**
